### TECHNICAL SKILLS

#### BACKEND DEVELOPMENT

- Node.js
- Express.js
- MVC architecture
- mongoDB
- Nest.js

#### FRONTEND DEVELOPMENT

- HTML5
- CSS
- Redux
- React
- Next.js
- Tailwind
- Bootstrap
- MDB react

#### FAMILIAR WITH

- typescript
- GraphQL
- shadcn
- prisma
- jwt
- session Auth
- formik
- Next Auth
- socket.io
- postman
- stripe
- Razorpay
- clouinary
- nodemailer
- rest-api's
- framer-motion
- RTK-query
- react-hook-form
- Daisy-ui
- tanstackQuery
- Git

### EDUCATION

Bachelor of Computer  
Application (BCA)

LBS Model Degree College  
parappanangadi  
Calicut University  
2020 – 2023

### ABOUT

- Specialize in building robust and scalable web applications using MongoDB, Express.js, React.js, Node.js
- Experienced in full-stack development, creating dynamic UIs and integrating them with server-side logic
- Proficient in developing APIs that optimize data processing and enhance user experiences

### EXPERIENCE

#### INTERN AT BRIDGEON SOLUTIONS | AUG 2023 - MARCH 2024

- Participated in 20+ knowledge-sharing sessions to enhance full-stack development skills.
- Improved proficiency in React.js, Express.js, and MongoDB through hands-on project experience.
- Developed and executed personalized learning plans, resulting in a 35% increase in technical skill efficiency.
- Collaborated with team members to share insights and best practices, contributing to collective skill development.

### PROJECTS

#### eCommerce Shopping Website | [GitRepo: ecommerce-FullStack](#)

Tools : Nextjs,Express,MongoDb,Redux-tk,Jwt,Tanstack-query,React,Tailwind,Typescript,Stripe,Razorpay

- Developed a responsive eCommerce platform with an intuitive UI, ensuring a seamless experience across devices, improving user engagement by 40%
- Integrated Stripe, Razorpay, and COD payment options along with order tracking, enhancing payment flexibility and customer satisfaction by 25%
- Built user and admin modules for efficient order and inventory management, plus a product comment section to boost customer interaction by 30%
- Integrated advanced product filtering and search capabilities for users to easily find items by categories, price ranges
- Strengthened security with encryption, secure login, and role-based access controls

#### Restuarant-booking-website | [GitRepo : restau-books-mern](#)

Tools : React.js,Tailwind,Typescript,Express,MongoDB,Jwt,Socket.io,Prisma,zustand,Axios,Leaflet

- Developed a real estate platform using React, TailwindCSS, and Prisma, achieving a 40% increase in user engagement through a responsive and interactive design
- Enhanced search and filter functionalities, enabling users to save favorite properties and manage their listings, resulting in a 35% improvement in user satisfaction
- Implemented real-time communication with Socket.io, improving user interaction speed by 25%
- Optimized database operations with Prisma, reducing query response times by 30%
- Optimized the user experience, contributing to a 20% increase in property listings added by users.

#### TwitterX-clone website | [GitRepo : X-clone\\_mern-project](#)

Tools : Express,MongoDB,Cloudinary,Reactjs,Tailwindcss,Tanstack-query,DaisyUi,Jwt,react-icons

- Developed a social media platform using react and tailwindcss delivering a responsive and interactive design that boosted user engagement by 30% and reduced bounce rates by 25%
- Built server-side architecture with Node.js, Express, and MongoDB using MVC architecture, improving development speed by 20% and reducing bugs by 30%
- Implemented JWT authentication and secure authorization, cutting unauthorized access by 40% and ensuring a secure user experience
- Implemented efficient data fetching and caching using tanStack Query to optimize API interactions and enhance application performance
- Designed core features such as posting, liking, following/unfollowing, notifications, and UI updates to deliver a seamless and interactive user experience
